#### **Artist statement:**

I want my work in clay to represent growth and accomplishment, in which I believe reminiscence and nostalgia play a part. I rely on texture and color to create a sense of motion and time in my work. I hope to instill a sense of age, like one finds apparent in discarded objects, with the aim to infuse feelings of nostalgia and wanderlust in my ceramic objects. By exploring and creating vessels kept within arm's reach, I hope to communicate how an object's significance can grow and change depending on the path of a person's life. How the relationship between function and ornament shift throughout the course of a day/week/year. Through form and surface my goal is to communicate a sense of home and memory but also to evoke that feeling of wanderlust that has informed my own life and visual sensibilities.
